

Bitcoin rewards need Bitcoin knowledge.

Bitcoin introduces scarce digital value and borderless ownership—but safe participation starts with understanding wallets, volatility, fees and personal responsibility.

LEARN

Understand before acting

SECURE

Protect wallet access

DECIDE

Assess risk responsibly

IMPORTANT DISCLAIMER

No guaranteed income, Bitcoin value, liquidity or rewards. Never borrow to participate; verify current terms, taxes and local laws.

Crypto learning and cybersecurity come first

01

WHY BITCOIN MATTERS

Scarce digital value, global accessibility and self-custody are powerful—but price and adoption can change.

02

CRYPTO LEARNING

Understand blockchain, wallets, networks, fees and volatility before sharing or transacting.

03

CYBERSECURITY

Protect seed phrases, verify links and contracts, avoid fake support, phishing and risky approvals.

BTC24HOURS.COM combines education, security awareness and a transparent 0.0007 BTC course plan.

Knowledge helps members make informed decisions; it does not remove market, technical or regulatory risk.

Seven levels distribute 76% across the network

76%

7-LEVEL NETWORK

+5%

ROYALTY

+5%

SPILOVER

IMPORTANT: Bitcoin / blockchain transaction gas fees are charged separately and are not included in Level Income.

Every contribution supports benefits and sustainable growth

COMMUNITY BENEFITS

76% seven-level network rewards
+ 5% Royalty + 5% Spillover

COMMUNITY REWARDS

14%

COMMUNITY GROWTH & INFRASTRUCTURE

- 01 BTC24 exchange-listing preparation and integrations
- 02 Global marketing, partnerships and community expansion
- 03 Platform development and Agentic AI operations
- 04 Blockchain transaction and gas fees for BTC24 and Collab project transfers
- 05 Servers, maintenance and technical support
- 06 Long-term ecosystem sustainability

86% supports community rewards. The remaining 14% funds growth, visibility, technology and operations.

Royalty Income turns global growth into shared opportunity

5%

ROYALTY ALLOCATION

Automatically allocated to the
Royalty Income Pool under active
program rules.

ROYALTY INCOME POOL

Benefits for eligible community builders

- 01 Global participation** Eligible members can benefit from qualifying activations across the worldwide community.
- 02 Shared momentum** As qualified global activity grows, the Royalty Pool allocation can grow with it.
- 03 Builder recognition** Rewards active community builders who meet the published qualification rules.
- 04 Community retention** Creates an additional reason to educate, support and retain genuine course members.
- 05 Transparent allocation** A defined 5% contribution makes the pool easier to communicate and verify.

Pool size and individual shares vary. Royalty income is not guaranteed.

Spillover shares 5% beyond the direct referral path

5%

SPILOVER ALLOCATION

Allocated under the active
spillover rules for qualified
community participation.

Why Spillover matters

- 01 Wider reach** Creates a defined reward path outside the immediate sponsor allocation.
- 02 Community balance** Recognizes qualified participation across the wider member network.
- 03 Clear separation** Keeps Spillover distinct from direct-sponsor and Royalty rewards.
- 04 Rule-based access** Eligibility, placement and payout follow the published active terms.

Spillover placement and income are not guaranteed.

Every third direct referral uses a special 90 / 5 / 5 split

90%

IMMEDIATE SPONSOR

Direct sponsor only

5%

ROYALTY POOL

Qualified royalty allocation

5%

SPILOVER

Qualified spillover allocation

Important: the 90% goes only to that member's immediate direct sponsor. It does not pass to the main sponsor or another upline.

Applies to every third qualified direct referral, subject to current eligibility and activation rules.

Every level follows one transparent formula

Qualified course members × 0.0007 BTC × level percentage

Example: 10 qualified course members at Level 1

10 × 0.0007 × 35%

= 0.00245 BTC

Count only qualified activity

Do not count registrations that fail eligibility, payment, verification or active-term requirements.

Bitcoin / blockchain transaction gas fees are charged extra.

Improve opportunity by strengthening the first 3 levels

01

Learn first

Explain wallets, fees, volatility and security before enrollment.

02

Support directs

Help direct members understand the product and current terms.

03

Build duplication

Use one simple education process that every member can repeat.

04

Protect trust

Avoid pressure, guaranteed-income language and misleading screenshots.

The “easy” method is clarity and support - never a promise of effortless income.

A practical 30-day member-support plan

WEEK 1

Learn

Complete the crypto, wallet and security modules.

WEEK 2

Practice

Explain the plan accurately to a small test audience.

WEEK 3

Support

Help interested members verify terms and onboard safely.

WEEK 4

Review

Track qualified activity, questions and retention - not hype.

Measure: course completion • verified members • support quality • security incidents prevented

Extra gift for activated users: BTC24 Token
